EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 51: line 4, -- therefrom -- has been retained, otherwise the claim is indefinite.

Fully amended text is given below.

51. (Currently Amended) A display element for a display device comprising:

a support; and,

means for rotating in relation to the support to differently reflect projected light in accordance with electrons emitted therefrom.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: None of the references cited teaches or fairly suggests the functional relationship between the rotation of a means to differently reflect projected light and an emission of electrons from the means, as now broadly claimed in independent claim 51.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
